4430F Double Coated Foam Tape

Product Data Sheet

Updated : April 1995

Supersedes :

Product Description

4430F is a white double coated synthetic foam tape with a high tack acrylic adhesive. This tape has a plain white filmic liner.

Physical Properties

Not for specification purposes

Adhesive Type	Acrylic	3M ref :
Foam Core	Synthetic	Foam Density 560 kg/m ³
Tape	0.8 mm ± 0.1mm	
Release Liner	White Polyethylene	
Tape Colour	White	
Shelf Life	12 months from date of despatch by 3M when stored in the original carton at 21°C (70°F) & 50 % Relative Humidity	

Performance Characteristics

Not for specification purposes

Peel Adhesion to Stainless Steel 90° peel @ room temp, 72 hr dwell, jaw speed 300mm/min	20 N/10mm	
Static Shear Strength weight held for 100 hours to stainless steel with ½ sq in (3.23 sq cm) overlap	1000g @ 20°C 500g @ 70°C	
Temperature Performance Continuous	70 °C	
Intermittent	100 °C	

Date : April 1995
4430F Double Coated Foam
Tape

Additional Product Information

This product is suitable for plasticised PVC BUT IS NOT SUITABLE FOR LOW SURFACE ENERGY PLASTICS.

Application Techniques

1. Bond strength is dependent upon the amount of adhesive-to-surface contact developed. Firm application pressure develops better adhesive contact & thus improves bond strength.

2. To obtain optimum adhesion, the bonding

surfaces must be clean dry and well unified. A typical surface cleaning solvent is isopropyl alcohol & water. Use proper safety precautions for handling solvents.

3. Ideal tape application temperature range is 21°C to 38°C (70°F to 100°F).

Initial tape application to surfaces at temperatures below 10°C (50°F) is not recommended because the adhesive becomes too firm to adhere readily. However once properly applied low temperature holding is generally satisfactory.

Applications

Bonding cable trunking within cabinets or on furniture.

Point of sale bonding applications using board, paper and most plastics.

Signing applications - low performance.

Furniture trim bonding.

Cable clips & air freshener, bonding.
