# Scapa Soft-Pro® Silicone Gel

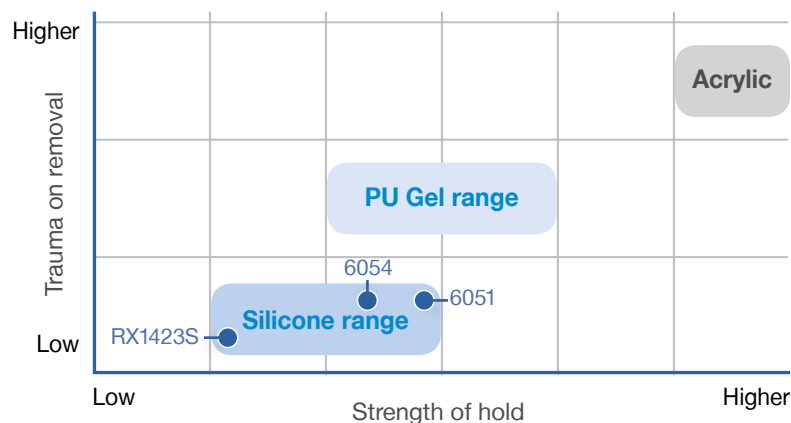

Scapa Soft-Pro® Silicone Gel is highly conformable and easy to apply and remove. The silicone gel layer ensures secure fixation and gentle removal from skin. Scapa Soft-Pro® Silicone Gel is an ideal fixation solution for patients with fragile and sensitive skin. It is suitable for patients requiring repeated application and removal over the same area.

Scapa Soft-Pro® Silicone Gel may be incorporated into your final product design, providing skin friendly adhesion for the patient. Scapa Soft-Pro® Silicone Gel can also be used for fixation of medical devices and can be produced in double-sided and single-sided variants.

## Ideal for use on fragile and sensitive skin:

- Low trauma, minimizes pain on removal
- Use on open or intact skin
- Repositionable
- Conforms to body contours
